# Getting Started with SORA
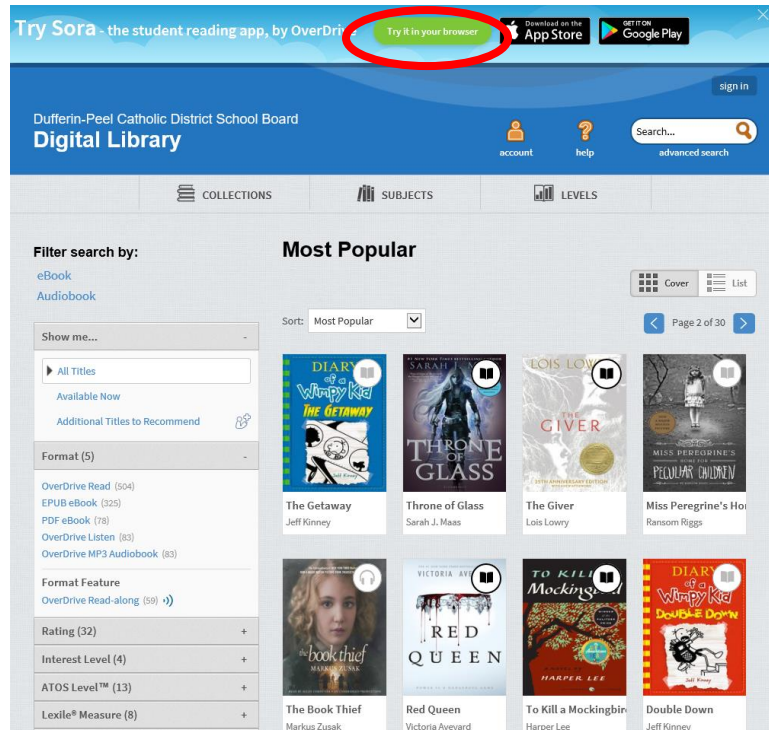

1. Select the "Download" button from an eBook entry in an Enterpirse Online Public Access Catalogue search results display.

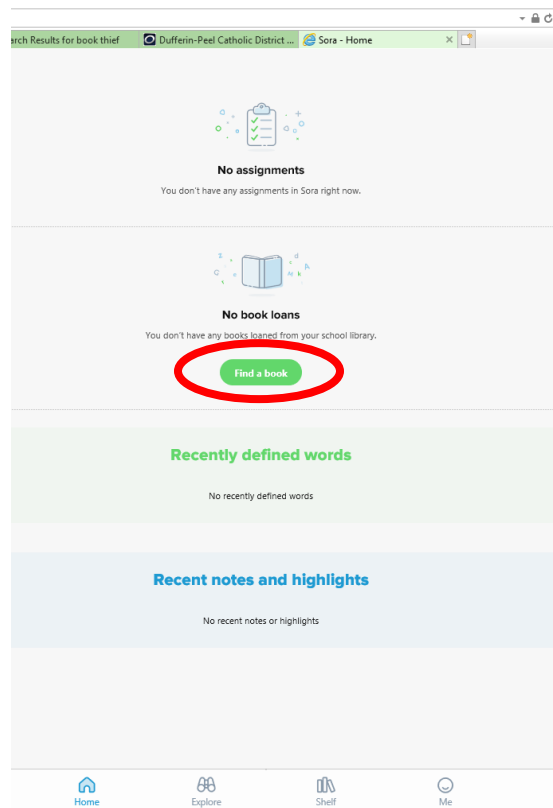

Users will be prompted for the SORA application at the top margin of the Overdrive website interface.

2. Select the green button in the top "Sora" light blue banner.

3. Select the "Find a Book" green button in the webpage.

4. Select the top right menu bar of the webpage.

5. Select the "Add a public library" menu option to add your local library to the list of libraries.

6. Start typing your Public Library name, then select the green "This is my Library" button under your chosen library option.

7. Select the top left margin search option and select the check box for "Search all of my libraries". Type the eBook title name in the search box and press enter.
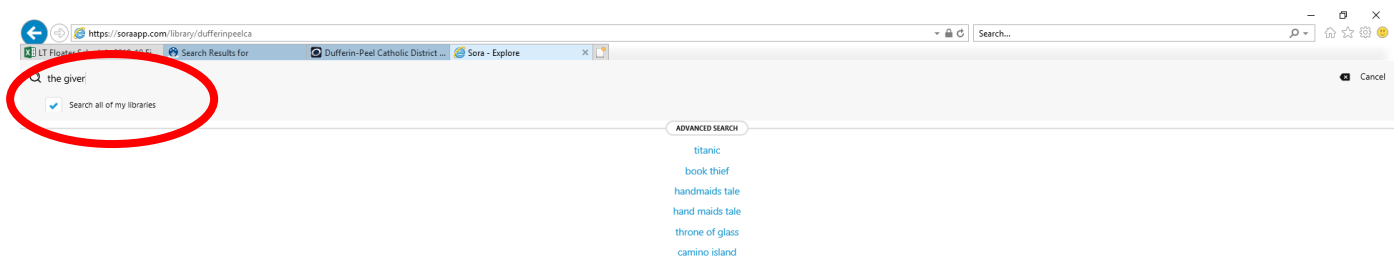

8. Notice the search result entries are grouped according to library, with DPCDSB collection followed by the public library collections you added to your account profile. Proceed to Select the eBook entry.

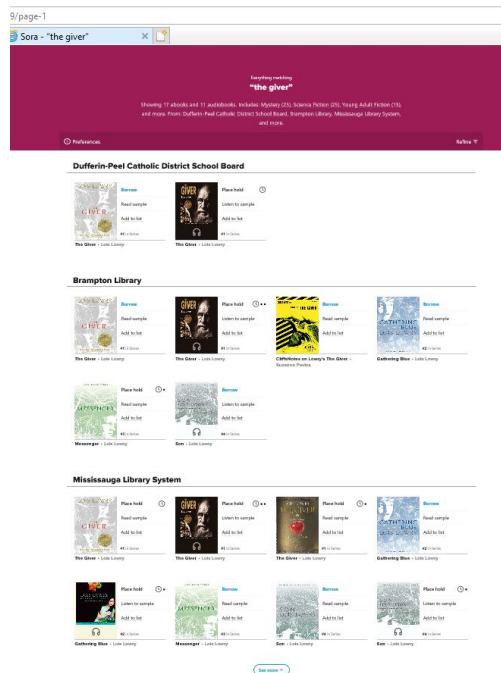

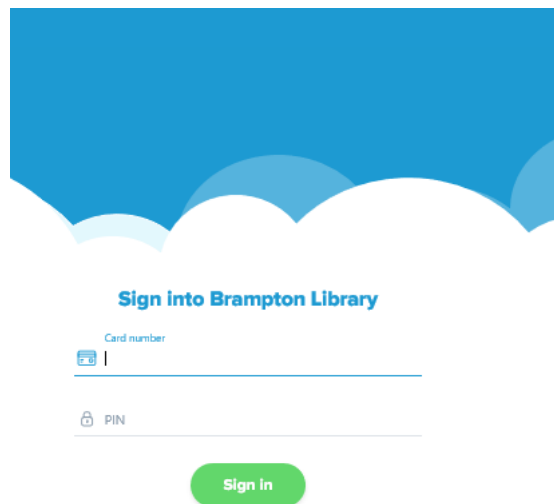

9. Select the "Borrow" link to check out the ebook.
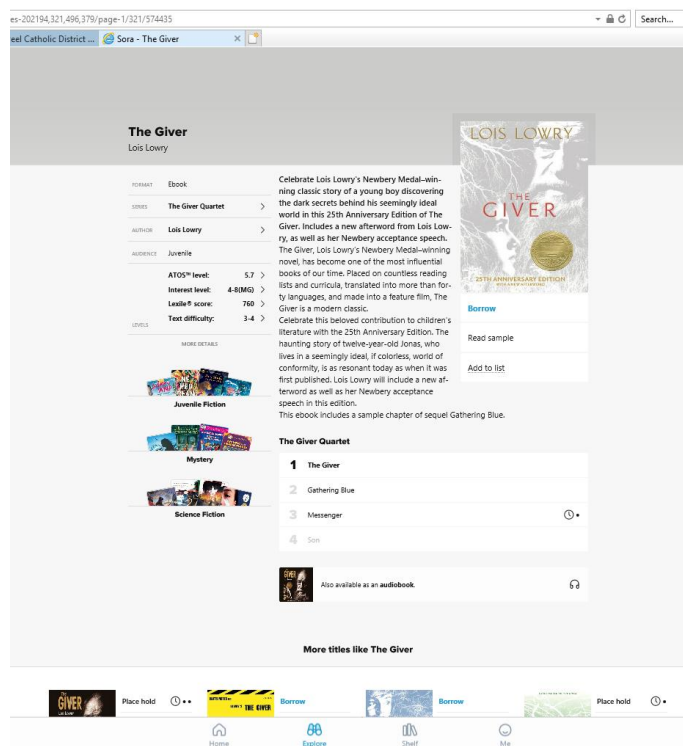

10. If the eBook is from a Public Library collection, then select the "Sign in" link to login to your public library's Integrated library system.
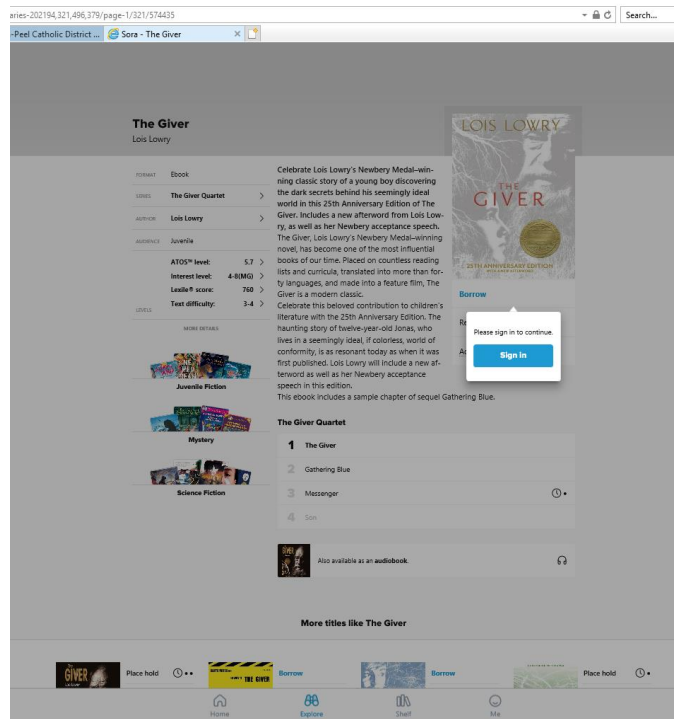

11. Type your card number and pin to login and check out the eBook.
